NEW IMPACT MATERIALS

ZIP MOLD

Take ZipMold technology to the next level. A patented, more seamless appearance with a higher weight to strength ratio. More durable, "bombproof". Patent Pending.

BROCK

Brock Foam™ is specifically engineered to keep you cooler, dryer and more comfortable. Brock is a lightweight, resilient foam that allows moisture and air to circulate through it in any direction without the risk of absorption. Brock Foam also is very resilient and returns to its original shape after impact, thereby offering protection for multiple impact applications.
